

# Hutton

Church of England Grammar School  
and Sixth Form

Head Teacher: Mr M L Bradshaw BA (Hons) NPQH

*Accomplishment... Humility... Service...*

10/11/22

Dear parent/carers,

As you will be aware geography is all around us, both the physical and human. In order to experience this fully we must immerse ourselves in it. Working with nature is not something all our students experience regularly. With this in mind, I am organising another visit to Longton Brickcroft Nature Reserve, this will take place on Saturday 19<sup>th</sup> November 2022, 10.00-12.00. Students must make their own travel arrangements and meet us on site.

Equipment will be provided, but if students want to bring their own gardening gloves, this would be helpful. We will have a talk from the neighbourhood officer on site and then we will help to carry out management work – pruning/clearing/weeding/coppicing/litter picking etc.

I hope that the students enjoy helping their local community and ecosystem. This will also be something positive to discuss and possibly include on UCAS forms. There will also be an opportunity for them to come back to Brickcroft independently and help with the site.

This opportunity is open to all Hutton sixthform students who want to get involved, particularly Geography and Biology students, please return letters ASAP.

Students should wear appropriate clothing, waterpoofs, wellies/robust shoes, warm hat.

Yours sincerely,

Miss Michelle Monaghan  
Geography Teacher
